MONEY, BONDS AND STOCKS.

A Dull, Unsettled, Feverish and Generally Weak Market in New York. NEW YORK, Aug. 18 .-- Money on call was easy at 11222 per cent, the last loan being made at 2, closing offered at 1; Prime mercantile paper, 4064 per

Sterling exchange steady at \$4.8419 for sixty-day

bills, and \$4.87 for demand. The total sales of stocks to-day were 90,514; shares, including the following: Delaware, Lackawanns & Western, 7,340; Erie, 4,216; Kansas & Texas, 1,950; Lake Shore, 3,730; Louisville & Nashville, 1,826; Missouri Pacific, 5,600; Northwestern, 4,045; New Jersey Central, 1,700; Northern Pacific perferred 1,550; Reading, 10,110; St. Paul, 14,805; Western Union, 9,582.

The stock market was dull to-day, and, while somewhat unsettled and feverish, was generally weak, and most of the list closed lower this evening than the last previous sales. There was a more hopeful feeling on the street at the opening, and first sales were made at advances over last evening's closing figures of from 18238 per cent., which, advantage was further increased by small fractions in the early trading. The business done was small and unimportant. how ever, and when the first demand slacked off the "bears" renewed their pressure against the list, and everything weakened. The grangers led off, with Northwestern in the lead, but the Gould stocks became most prominent shortly, and Missouri Pacific rapidly declined over 1 per cent. the "bulls" in these stocks being very timid and the feeling upon them very unsettled. New England was the next point of attack, and retired a fraction, though the general list was somewhat stronger and recovered partially from the lowest prices reached. The movement lacked vim, however, and the tone of the market at the close was rather heavy and unsettled: The final changes, while in some cases for more than fractional amounts, were almost invariably in the di-

rection of lower figures.

The railroad bond market was unusually narrow and the changes in quotations extremely small, there being no marked movement anywhere in the list. As in the share list, dullness was the most conspicuous feature, but the activity in the Reading issues brought up the total sales to a fairly respectable

The full sales reached \$525,000, of which the Reading firsts incomes contributed \$157,000, but the dealings were utterly devoid of any other feature. Government bonds dull and steady.

State bonds were entirely neglected. Closing quo-

CHICAGO, Aug. 18.—There was a change in the speculative atmosphere from the curb feeling of last night to the beginning of business to-day. In the grain markets there was a sudden let-up and a mild reaction in prices. Wheat opened 'go lower, and before noon sold 1c under the closing prices yesterday. Corn also started 'go lower, and after a rally to the closing price, dropped back a fraction. Oats were firm and '4c higher for October. In provisions the feeling of strength continued. Opening prices were about 5c higher, and pork sold at about the outside prices touched yesterday. Sales for September for the forenoon ranged; Wheat, 8358384c; corn, 4438341g and 447sc; mess pork, \$13.60313.67. There was light trading in corn. The market appeared to be little affected by outside reports, and it was not disturbed by outside orders. Opening prices were about '9c lower. INDIANAPOLIS MARKETS.

The Trade of the Week Quite Satisfactory-Fluctuations on Values Few. INDIANAPOLIS, Aug. 18.

In nearly all departments merchants speak of the trade of the week closing to-day as having been very satisfactory in volume, and with this the tone of prices in the main has been steady and firm. Dry goods men had an excellent week's trade. Retail merchants are making liberal purchases, as prices rule so steady that it is safe to stock up freely. The fact is that prices are likely to advance rather than decline: especially is this remark true of cotton goods.
Woolen goods, as well, are meeting with good sale,
and the increasing sales and increasing inquiry is
looked upon as likely to stiffen prices on woolen
goods. Grocers have had a good week. The distribution of sugars is seldom as large as it has been for four weeks past, and coffees are moving out in good style. The firmer tone to prices East inclines Western merchants to take hold more freely. In the produce markets there is a good deal of activity. Poultry is coming in quite freely, but the demand is, as well, improving, consequently prices are steady and firm. Eggs are arriving in fair quantities, and the market rules firm. arriving in fair quantities, and the market rules firm. There is less poor stock coming on to the market than last month. As a consequence, the losses through the candling process are considerably lessened. Apples, peaches, pears and melons are all in large supply, and prices easy, depending much on the buyers' valuation of the articles named, or, in other words, the buyer has about as much to do in naming the price as does the seller. The provision market is fairly active in a jobbing way at unchanged prices. The seed market is more active, and rules firm at the revised quotations of Thursday last. The flour market is more active, and the tendency is to better prices on some grades; in fact, a shade higher prices are now ob-

The local market at the close was in much better shape than at the beginning of the week. The demand for the better grades of all cereals is better, and prices a shade higher. The Indianapolis Market Report says of the local market: "The receipts of wheat show a material falling off, there being but 60 cars inspected during the past two days, as against 106 cars for the preceding period. The market is firm under light offerings, and unless other markets drop we may expect prices here to strengthen some.

No. 2 red is salable at 83 gc, track or to arrive; No 3 red at 76 80c; rejected at 66 76c, according to quality. Corn receipts continue light, although an improvement is looked for next week. Inspections for past two days, 18 cars, as against 17 for preceding two days. No. 1 white is salable at 4712@48c; No. 2 white at 4612@463c, and offerings free. The sellers of mixed and yellow grades are few, and prices are consequently quite firm; No. 2 mixed is salable at 434@431gc; No. 3 mixed at 420 421gc. Ear corn is slow sale at 421gc for mixed. Inspections of oats for the past two days, 25 cars as against 20 cars for preceding period. Receipts are none of them grading above rejected. No. 2 mixed and No. 2 white are wanted, but none are on the market. Rejected cats are selling slowly, and by samples entirely."

Track bids to-day ruled as follows:
